

Facilitation ABCs: Fundamentals of Facilitating Learning

An effective facilitator engages learners to share responsibility in achieving the learning objectives. This three day workshop will equip you with foundational tools to facilitate a meaningful in-person learning experience. It's a highly interactive and FUN immersion into the world of workshop facilitation!

Workshop Description:

Join us and explore the elements of an effective workshop opening and closing, the experiential learning cycle and its importance for adult learners. You'll discuss various facilitator-centred and learner-centred instructional techniques and apply the ORID focused conversation method for optimizing group reflection following learning activities. And you'll walk away with practical tips for adapting to individual learning styles during a workshop and handling typical group dynamics!

Upon completion of this workshop, you will:

1. Discuss the elements of an effective workshop opening and conclusion.
2. Differentiate between facilitating learning and providing instruction.
3. Discuss the experiential learning cycle and its importance for adult learners.
4. Describe the components of an individual's learning style and strategies for adapting to different learning styles during a workshop.
5. Apply the ORID focused conversation method for optimizing group reflection following learning activities.
6. Compare and contrast various facilitator-centred and learner-centred instructional methods.
7. Describe typical group dynamics as they apply to adults during training and the implications for facilitators
8. Practice how to facilitate discussion and learning activities in a workshop setting.
